LOCATION MAP

MARRIOTT LOUISVILLE DOWNTOWN

Second Level
Dear CARRA Conference Attendee,

It gives me great pleasure to welcome you to CARRA’s 15th Annual Scientific Meeting in Louisville, Kentucky!

The CARRA meeting is a unique opportunity for pediatric rheumatology researchers and stakeholders to work on collaborative research projects face-to-face while networking with colleagues from around the world.

I would like to extend an especially warm welcome to the pediatric residents, patient/family attendees and our other distinguished guests. You will be learning about our pediatric rheumatology research community as well as helping us at the meeting to perform important and crucial work toward improving the lives and medical care of patients with pediatric rheumatic diseases.

OUR PLENARY SPEAKERS

We have several thought provoking and dynamic plenary speakers scheduled:

- Angelo Ravelli (Professor of Pediatrics, University of Genoa and the Giannina Gaslini Institute, Genoa, Italy) and Daniel Solomon (Professor of Medicine, Harvard Medical School and Brigham and Women’s Hospital, Boston), two favorite speakers of the Rheumatology community, will kick off the 2019 Annual Scientific Meeting with a Great Debate on Treat-to-Target as an approach to clinical practice improvement. This promises to be a lively and impactful interaction regarding the state of the field.

- James Witter (NIAMS) and Bryce Reeve (Duke University) are leaders of the PEPR (Pediatric Patient Reported Outcomes in Chronic Diseases) consortium and will discuss the important work this organization is doing on the development and clinical evaluation of PROs (pediatric patient-reported outcomes) and use of the PROMIS measures (Patient-Reported Outcomes Measurement Information System) to capture the voice and lived experiences of children and their families coping with chronic disease.

- Gary Walco (Professor of Anesthesiology and Pain Medicine at Washington University, Director of Pain Medicine at Seattle Children's Hospital, and the past Chair of the Pain Committee for CARRA!) is an internationally recognized expert in Pain research and will bring the CARRA community up to date on the rapidly changing State of Pain Research.

OTHER MEETING HIGHLIGHTS

As in recent years, there are pre-meeting sessions focused on professional development for Fellows and Early Investigators. Research Coordinators will also meet in a pre-session to discuss project management and site performance and Patients and Family members attending the conference will meet for an orientation session and training on how they can help to further the mission of CARRA.

The Annual Scientific Meeting General Session will commence on Thursday afternoon, followed by a Welcome Reception on Thursday evening sponsored by the Arthritis Foundation. The reception will showcase posters featuring research projects of CARRA members and their colleagues, as well as information about Arthritis Foundation resources and programs.

Continued on next page.
The core Activities of the meeting, of course, are the concurrent Workgroup sessions on Friday and Saturday. The CARRA Update will be on Friday and is open to all attendees. The CARRA business meeting (open to CARRA members only) on Saturday is particularly important this year as we will be discussing a number of initiatives that will impact the future of CARRA.

The meeting will finish with the Annual CARRA Dinner and Awards when the winners for best abstracts will be announced, followed by an evening of games and fun in the company of your friends and colleagues!

THANK YOU!
CARRA would like to extend a huge thank you to the Arthritis Foundation for their ongoing participation and support of CARRA. We are excited to continue and grow our partnership as we work together to improve the lives of children with rheumatic disease.

With the continued support of corporate meeting sponsors, including Novartis, AbbVie, Amgen, and Genentech, our meeting continues to grow in size and value in support of our common goals to meet the needs of pediatric rheumatology patients and the research community of CARRA.

A special thanks from all of us goes to the 2019 Annual Meeting Planning Committee, which includes Stacy Ardoin, MD, MHS, Adam Huber, MD, Laura Lewandowski, MD, Jay Mehta, MD, and Yukiko Kimura, MD (Past President), for putting together a great meeting. We are also grateful to Vincent Del Gaizo and Suz Schrandt for a tremendous amount of work organizing and orienting the patient and family participants in the meeting.

Finally, I would like to thank you all for your work and support for CARRA. It is an honor to serve as President of such an amazing community dedicated to such an important goal. These are incredibly exciting times for CARRA and I look forward to continuing the journey with you.

Robert Fuhlbrigge, MD PhD
President, CARRA, Inc.
Dear Friends,

The Arthritis Foundation is proud of our longtime association with CARRA, which we have supported since your crucial work began in 2002. Our commitment today is stronger than ever. Together, we are dedicated to improving the lives of those facing daily challenges of juvenile arthritis and other pediatric rheumatic diseases.

CARRA’s Stop-JIA initiative is just one of many joint efforts the Arthritis Foundation is pleased to be a part of. With enrollment of more than 400 young patients, this is the largest prospective research study of its kind to help make personalized treatments a reality someday soon.

Last year, we told you about our vision for the Live Yes! Arthritis Network, which has since come to life, bringing JA families closer together through online interactions and community-level gatherings. Parents get the support they need and have an outlet to express their feelings, worries and fears more than ever before. See what it’s all about at arthritis.org/LiveYes.

CARRA and the Arthritis Foundation are a powerful team. Please help bolster our momentum this spring by joining or forming a Walk to Cure Arthritis team. Register now by clicking on the Walk to Cure Arthritis (WTCA) icon on the meeting app or visit the CARRA National Team page on arthritis.org. Stop by the Arthritis Foundation booth, located in the Marriott Ballroom Foyer to learn more.

Through our continued partnership, we will connect even more families and empower them to live their best life while we pursue a cure. Thank you.

Ann M. Palmer  
President & CEO  
Arthritis Foundation
The Arthritis Foundation invites you to a **Welcome & Poster Reception** at the 2019 CARRA Annual Meeting

**THURSDAY, APRIL 11, 2019**

7:00 p.m. - 9:00 p.m.

Marriott Louisville Downtown
Marriott Ballroom Salon VII-X

Heavy hors d’oeuvres and drinks will be served
(2 complimentary cocktail tickets provided)
No RSVP Required
REGISTRATION DESK
Registration will be located in the Marriott Ballroom Foyer and will be open Wednesday from 8:00 am – 6:00 pm, Thursday, Friday and Saturday from 6:45 am – 6:00 pm.

CARRA DINNER, AWARDS, AND GAMES
Saturday, April 13, 2019, 7:30 pm
Join us for dinner, awards and games! There will be a DJ and plenty of games to get competitive with your fellow CARRA Annual Scientific Meeting attendees. During dinner, awards will be presented for CARRA abstracts as well as recognition for CARRA service.

WIFI
Wi-Fi is available in the meeting spaces.

Silvergate Pharma

EXHIBIT HOURS IN THE MARRIOTT BALLROOM SALON V-VI
Thursday, April 11: 12:00 pm – 7:00 pm
Friday, April 12: 7:00 am – 6:00 pm
Saturday, April 13: 7:00 am – 6:00 pm

POSTER PRESENTATIONS
Posters will be displayed all day Friday, April 12 and Saturday, April 13 in Salon VII-X.
Abstract authors will be present at their poster during the Arthritis Foundation-Sponsored Welcome & Poster Reception Friday evening from 7:00 pm – 9:00 pm.
Poster presenters, please take your poster down Saturday, April 13 after the CARRA Dinner, ending at 10:00 pm. Any remaining posters left up will be discarded on Sunday morning.

MOBILE APP
Download the 2019 CARRA meeting app in the Apple and Android stores by searching for and downloading the “Crowd Compass Attendee Hub” app. Once you have downloaded the app, open it and search for ‘CARRA 2019.’ Thank you to Novartis for sponsoring the 2019 mobile app!

CONFERENCE MEALS
The following will be provided to registered conference attendees by CARRA:

- **Thursday**: Breakfast and lunch for pre-conference attendees. At the Arthritis Foundation-Sponsored Reception, hors d’oeuvres and 2 drink tickets. A cash bar will be available for any additional alcoholic drinks. Non-alcoholic drinks are available at no charge.
- **Friday**: Breakfast and lunch.
- **Saturday**: Breakfast, lunch and dinner. At the CARRA Dinner, 1 drink ticket will be provided. A cash bar will be available for any additional alcoholic drinks. Non-alcoholic drinks are available at no charge.

DRINK TICKETS
In your name badge are three drink tickets. The two green tickets can be used at the Arthritis Foundation – Sponsored Welcome & Poster Reception Thursday evening and one blue ticket can be used at the CARRA dinner on Saturday evening. A cash bar will be available for any additional alcoholic drinks. Non-alcoholic drinks are available at no charge.
GENERAL INFORMATION

SECURITY
We urge caution with regard to your personal belongings and meeting folders. CARRA is unable to replace these in the event of loss. Please do not leave any personal belongings unattended in the meeting rooms.

EVALUATION FORMS
2019 CARRA Annual Scientific Meeting evaluations will be distributed at the registration table when you check-in. Please fill out your evaluation during the course of the meeting and return it to the registration desk prior to leaving on your last day in attendance. If you are not able to complete it during the meeting or would prefer to wait until after the conference, please scan and email your completed evaluation to info@carragroup.org. In order to be eligible for reimbursement, a completed evaluation must be received by April 29.

TRAVEL REIMBURSEMENT
Parents/patients, speakers and the following CARRA Member types may be eligible for travel reimbursement to help cover the costs associated with attending the meeting: Pediatric Rheumatologist, Sponsored Voting Members, Associate Physician Members, Emeritus Members, Associate Health Care Members, Participants in the Pediatric Residents Program, Research Coordinators and Fellow Members. Full details are available in the Travel Reimbursement Policy posted on the 2019 Annual Meeting page. A link to the form will be sent to you by email. If you do not receive the form, please contact membership@carragroup.org. You must be current on membership dues, complete the meeting evaluation, and submit your stipend request by April 29, 2019.

PHOTOGRAPHY
A professional photographer will be onsite documenting the event, and by registering for, and taking part in the 2019 Annual Scientific Meeting, your photo may be taken and used in future promotional materials.

HEADSHOTS
CARRA will have a photographer available to take professional headshots on Saturday, April 13 from 12:45 pm – 4:00 pm in the Marriott Ballroom Foyer.

TRANSFORMING THE LANGUAGE OF LIFE INTO VITAL MEDICINES
At Amgen, we believe that the answers to medicine’s most pressing questions are written in the language of our DNA. As pioneers in biotechnology, we use our deep understanding of that language to create vital medicines that address the unmet needs of patients fighting serious illness—to dramatically improve their lives.

For more information about Amgen, our pioneering science and our vital medicines, please visit www.amgen.com.

Amgen is a proud sponsor of the 2019 CARRA Annual Scientific Meeting

PLENARY SPEAKERS

ANGELO RAVELLI, MD
Treat to Target Debate Session
Thursday, April 11, 2019
3:30 PM – 5:00 PM
Marriott Ballroom Salon V-VI

Angelo Ravelli, MD, is Professor of Pediatrics and Director of Pediatric Residency Program at the University of Genoa, Italy. He is also Head of the Division of Rheumatology at the Giannina Gaslini Institute, Genoa, Italy. His field of clinical and research activity focuses on pediatric rheumatology.

He has received numerous grants and awards, including the Gerolamo Gaslini Prize for Excellence in Research in 2004 and a grant from the American College of Rheumatology (ACR) and European League Against Rheumatism (EULAR) to conduct the project aimed to develop the new classification criteria for macrophage activation syndrome in systemic juvenile idiopathic arthritis. Dr. Ravelli was the chairman of the International Consensus Conference which led to the development of the new classification criteria for macrophage activation syndrome in systemic juvenile idiopathic arthritis (Genoa, Italy, 21-22 March 2014) and of the International Task Force that developed the recommendations for the treat-to-target Strategy in juvenile idiopathic arthritis (Munich, Germany, 24-25 August 2017).

He is currently Treasurer of the Pediatric Rheumatology European Association (PRES), Chair Elect of the EULAR Standing Committee for Pediatric Rheumatology and Chairman of the Italian Pediatric Rheumatology Study Group.

Dr. Ravelli has been invited to speak in more than 200 national and international meetings, and is author or co-author of more than 300 full-length articles in international scientific journals. On Google Scholar, he has more than 21,500 citations and his current h-index is 74.

DANIEL SOLOMON, MD, MPH
Treat-to-Target Debate Session
Thursday, April 11, 2019
3:30 PM – 5:00 PM
Marriott Ballroom Salon V-VI

Daniel H. Solomon, MD, MPH, is a Professor of Medicine and Chief of the Section Clinical Sciences in the Division of Rheumatology at Brigham and Women’s Hospital (BWH). He holds the Matthew H. Liang Distinguished Chair in Arthritis and Population Health at BWH. Solomon has advanced the care and treatment of patients throughout his career, most notably with his investigative research achievements in the epidemiology of rheumatic diseases and the comparative effectiveness of treatments in this area.

Solomon earned his BA and MD degrees at Yale University, MPH at Harvard University and completed his residency in internal medicine and fellowship in rheumatology at BWH. His early work focused on the safety of NSAIDs and selective COX-2 inhibitors, and he continues to study analgesics. He has also examined osteoporosis prescribing in the US and conducted several large-scale trials to improve osteoporosis care.

Solomon’s current research focuses on cardiovascular disease in rheumatoid arthritis, and he is the co-Principal Investigator on an NIH funded trial testing the effect of disease-modifying antirheumatic drugs (DMARDs) on cardiovascular disease, also known as the TARGET trial. He also has several ongoing projects improving implementation of treat to target in rheumatoid arthritis.

He has published over 370 original articles, 60 editorials and book chapters, and has been PI on numerous NIH, foundation, and industry supported grants. He currently is the Deputy Editor of Arthritis & Rheumatology. As well, he is the Chair of the FDA Arthritis Advisory Committee. He is also the PI of the VERITY P30 Clinical Research Core at BWH which aims to improve clinical research in rheumatology.

In addition to his investigative achievements, Solomon has a busy clinical practice and has played a special role in helping the Hispanic community and been instrumental in advancing the collaborative clinical Cardiovascular in Rheumatology Medicine practice at BWH. Solomon has mentored over 30 trainees and junior faculty and was recently awarded The Baughman Faculty Mentoring Award at BWH.

JAMES P. WITTER, MD, PHD, FACR
PROMIS
Friday, April 12, 2019
8:00 AM – 9:00 AM
Marriott Ballroom Salon V-VI

James P. Witter, MD, PhD, FACR, is a Medical Officer/Program Director of the Rheumatic Diseases Clinical Program at the National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS) at the National Institutes of Health (NIH). He has served as the Chief Science Officer (CSO) of the Patient-Reported Outcomes Measurement Information System (PROMIS®), an early initiative of the NIH Roadmap (later known as the Common Fund) for Medical Research. He currently serves as CSO of the PEPR (Validation of Pediatric Patient Reported
Outcomes in Chronic Diseases-PEPR) Consortium and is an NIH lead on the emerging NIH-funded research program, Environmental Influences on Childhood Development (ECHO). He received his Ph.D. in Medical Microbiology/Immunology with a minor in Bacteriology from the University of Wisconsin-Madison, and his Medical Degree from the Medical College of Wisconsin-Milwaukee. He is a Harvard-trained, board-certified rheumatologist who was on staff at the Massachusetts General Hospital (MGH) and the Spaulding Rehabilitation Hospital (SRH). He has also served as a member of several American College of Rheumatology (ACR) committees. Before joining NIH, Dr. Witter was a Medical Officer/Team Leader at the Food and Drug Administration (FDA), and a Staff Physician in Rheumatology at the National Naval Medical Center with an academic (Assistant Professor) appointment at Uniformed Services University of the Health Sciences (USUHS) in Bethesda. Until recently, he also served as an attending rheumatologist at the NIAMS Community Health Clinic (CHC) in Silver Spring, Maryland. Dr. Witter has received multiple awards and honors in his Federal career, including the NIH Directors Award, and is a frequent presenter at professional rheumatology meetings. At NIAMS, Dr. Witter manages a wide-ranging research portfolio that supports patient-relevant clinical research and the design, development and execution of clinical trials and registries in rheumatic diseases in adults and children, such as rheumatoid arthritis, lupus, scleroderma, ankylosing spondylitis, psoriatic arthritis, gout, inflammatory myopathies, and vasculitis.

Dr. Bryce Reeve is a Professor of Pediatrics within the Duke University School of Medicine. At Duke, he serves as Director of the Center for Health Measurement. Trained in psychometric methods, Dr. Reeve's work focuses on enhancing the application of patient-reported data in clinical research and practice to improve the quality of care for pediatric and adult patients with chronic diseases. This includes the development of patient-reported questionnaires using qualitative and quantitative methodologies and integration of patient-reported data in research and healthcare delivery to inform decision-making. From 2000 to 2010, Dr. Reeve served as Program Director for the U.S. National Cancer Institute. In that role, he was instrumental in the development and scientific direction for the Patient-Reported Outcomes Measurement Information System (PROMIS) and the PRO version of the Common Terminology Criteria for Adverse Events (PRO-CTCAE) initiatives. From 2010 to 2017, he served as Professor of Health Policy and Management within the Gillings School of Global Public Health at the University of North Carolina at Chapel Hill. He currently serves, or has served, as PI on two NIH-funded R01 grants, a NIH U01 grant, a NIH U19 grant, a NIH R25 grant, and a PCORI-funded contract. From 2011-2013, Dr. Reeve served as President of the International Society for Quality of Life Research. In 2015, he received the John Ware and Alvin Tarlov Career Achievement Prize in Patient-Reported Outcomes Measures. In 2017 and 2018, he was ranked, by Clarivate Analytics, in the top 1% most-cited in his respective field over the past 11-year period.

2019 ANNUAL SCIENTIFIC MEETING WORKGROUPS AND LEADERS

NOVARTIS
Arthritis Foundation

DIRECTORY
CARRA has joined the Arthritis Foundation’s Walk to Cure Arthritis and Jingle Bell Run National Team Program

The National Team Program is another opportunity for the Arthritis Foundation and the Childhood Arthritis and Rheumatology Research Alliance (CARRA) to partner in helping the nearly 300,000 children with juvenile arthritis live better lives while searching for a cure.

National Teams may participate locally in Arthritis Foundation Walk to Cure Arthritis and Jingle Bell Run events and/or virtually.

It’s easy to form a new team or to link your existing team to the CARRA National Team!

CARRA’s 2019 National Team Captain is Vincent Del Gaizo, Director of Strategic Partnerships & Patient Engagement, vdelgaizo@carragroup.org. Vincent serves as CARRA’s main point of contact with the Arthritis Foundation’s National Teams Director and will be the cohesive force bringing together all the components of the CARRA National Team.

- If you would like to form a team for the Walk To Cure Arthritis or Jingle Bell Run, please contact Vincent Del Gaizo at vdelgaizo@carragroup.org. He will help you form your team and link it to the CARRA National Team.
- If you already have joined or formed a team, Vincent will tell you how to link your existing team to the CARRA National Team.

arthritis.org
You are unique. How will you make it count?

You offer so much that’s worth sharing with others. Your arthritis and your skills make you uniquely qualified to touch lives, to speak out, to change the trajectory of the disease.

The Arthritis Foundation has hundreds of ways in our Live Yes! Arthritis Network to get involved. Find the one that uses your power for good.
